

BOXERS COMMIT HORRIBLE CRIMES

Women Missionaries Killed and Subjected to Unspeakable Tortures

BUTCHERY IS KEPT UP

Fourteen English Missionaries, 4 Women and 6 Children, Murdered with Spears

KAISER BROKE THE CONCERT

Shanghai, Sept. 4.—[Special Cablegram]—Li Hung Chang says the Empress Dowager and party including the Chinese government officials are established in the palace of the governor of Tai Yuan Fu, who caused the slaughter of fifty missionaries.

London, Sept. 4.—[Special Cablegram]—A Daily News Shanghai cablegram says the Dowager Empress court is continuing the butchery of foreign missionaries at the new capital in Sian Fu.

Among the number of missionaries killed in the northern provinces were two women who were subjected to unspeakable tortures.

At Chu Chau, fourteen English missionaries, four women and six children were killed with spears and their nude bodies hanged to trees.

Shanghai, Sept. 4.—[Special Cablegram]—An imperial edict issued from Tai Yuan Fu appoints Li Hung Chang, Prince Ching, Yung Lu and Hsu Tung as peace commissioners to deal with the powers.

THE KAISER BROKE THE CONCERT

Washington, Sept. 4.—The game of international politics is now on fast and furious, and it is likely to be many days before the concert of the powers is restored. But one thing appears to be undisputed and that is that unless all powers withdraw from Peking not one of them will do so. If the Kaiser has his men in the Chinese capital he would in one sense be master of the situation, for his refusal to retire would doubtless compel Russia and all the others to remain.

At present the German force in Peking is almost too small to be counted, but it is said a considerable number of troops have been landed and will be rushed on to the imperial city as rapidly as possible. According to the views of the diplomatists here and of some members of the Washington government as well, the present probabilities are that there will be no withdrawal and that the emperor and emperor will not return to their capital.

It was the Emperor of Germany who broke the concert of the powers and brought on the present somewhat strained and critical situation.

Some interesting facts concerning this phase of the great world game became known here today.

It was fear of what the German emperor might do in China that led Russia to propose withdrawal from Peking, and a similar fear led the United States to endorse the Russian proposal as an alternative.

It is understood the Kaiser is very angry as the turn of events during the last few days, and is furious because Russia and the United States are trying to create a situation in which there will be no room for Field Marshal Waldersee to carry out his imperial master's ambitious and spectacular project.

But the Kaiser has only himself to blame. His bloodthirsty and vengeful speeches alarmed the world. His injunctions to his soldiers were such as to prepare them for a crusade of punishment and destruction. The German force in China thus promised to become a most violently disturbing influence, literally a bull in the China shop.

Russia took the lead and the United States reluctantly followed. The czar's

diplomats in this and other capitals make no secret of the fact that it was fear of what the Kaiser might do that led to the proposals to withdraw.

ENGINEER KILLED IN WRECK

Bad Railway Accident Near Freeport, Ill., on the Northwestern.

Freeport, Ill., Sept. 4.—Patrick Ryan, of Freeport, an engineer on the Chicago & Northwestern road, was killed in a wreck that occurred three miles east of Ridott station, and fourteen miles from this city. The train left Chicago at 4:45 o'clock, and was six minutes late out of Peconica. In rounding a curve the engine went over an embankment, the engineer being killed by being pinned by the reverse lever. He was buried underneath the wreck. The coaches all left the track, and the following persons were injured: J. D. Grant, Rockford, right side fractured; J. W. Hudson, porter, Chicago, left thigh injured and internal injuries; Mrs. Jennie Wohlford, Freeport, hurt internally; P. Kelsal, Freeport, left knee badly hurt; Albert Grattelo, Freeport, side injured; Adam Wirth, Freeport, leg crushed and side injured; Dr. Carver, Freeport, neck and shoulder injured; W. A. Walker, Chicago, back and leg injured.

PLATFORM TALKS ALL THROUGH OHIO

Bryan Campaigning in the Buckeye State—Silver Stands Where it Did in 1896.

Norwich, Ohio, Sept. 4.—[Special Telegram]—Wm. J. Bryan this morning talked to 1800 people at Zanesville from the car platform, saying that the party stands where it did in ninety six on the money question but he believes that the form of government is more important than the kind of money used.

At Cambridge one thousand people listened to him. He will continue these platform talks through Ohio, winding up at Cumberland, Md., in a grand blow-out.

WRECKED IN BERING SEA

The Bark Mercury, While in Heavy Gale.

Seattle, Wash., Sept. 4.—The tug Wallawa from Nome brings news of the wreck of the dismantled bark Mercury in Bering sea. The bark was being towed to this city by the tug and sprung a leak in a heavy gale. She was stripped of some machinery and abandoned in Cook strait, where she sunk. She was owned by Capt. E. E. Calne, of this city, and was sent to Nome last June in tow of a tug with coal and lumber cargo. She had been condemned as a sailing vessel. She was built forty-nine years ago in New York as a full-rigged ship. Twenty-one of the crew of the British steamer Cutch, wrecked on Douglas island, have arrived here on their way to Vancouver, B. C. They say the steamer was a total loss. The Yukon river steamer, Bonanza King, one of the fastest in the service, was wrecked in Fifty-Mile river Aug. 25 by striking a rock. Her forty-five passengers and the crew escaped to shore in safety. A large merchandise cargo is a total loss. The steamer may be saved. Skaguay printers have formed a union with seventeen members, the first in Alaska. Skaguay advices are that the placers of Porcupine district are turning out very rich. Justice Martin, of Victoria, is at Skaguay on his way into the district to settle disputes arising between American miners and new British officials, forced upon them by the modus vivendi.

MINERS DEMAND AN INCREASE

Cleaver Coup of Lackawanna Men Against the Company.

Wilkesbarre, Pa., Sept. 4.—The Delaware, Lackawanna & Western company miners will take advantage of their separate and exclusive organization to demand an increase of 10 per cent in wages. A committee has been appointed and the demand will be presented to Superintendent Loomis. The action is a clever coup which may place the company in an embarrassing position. The company has always refused to recognize the United Mine Workers on the ground that their officials were outsiders and had no standing as actual workmen. The officials said they were quite willing to treat with their own employees and discuss grievances if they had any. Then the leaders of the miners cleverly planned an organization of their own, to be confined to the Delaware, Lackawanna & Western employees exclusively. They received the encouragement of the company officials. They were, of course, opposed bitterly by the United Mine Workers, which did not want to lose so large a body of men, but nevertheless a week or so ago they completed their organization, elected officers and transacted business. They will now demand the 10 per cent increase, and if it is refused the company will doubtless become involved in the general strike which is threatened.

Eat Horses and Dogs.

The consumption of horse meat is on the increase in Germany, and in Breslau, Chemnitz, Dresden, Leipzig, Zwickau and other places dogs are slaughtered for food.

ODELL WILL HEAD NEW YORK TICKET

REPUBLICANS AGREE ON THEIR STATE NOMINEES.

Convention Opens at Saratoga Today—Gathering is Harmonious and Enthusiastic—Woodruff Consents to Take Second Place—State Issues in the Platform Agreed Upon.

Saratoga, N. Y., Sept. 4.—[Special Telegram]—Harmony and enthusiasm prevailed among the delegates and politicians who participated in the republican state convention here today. There has not been or will be no strife over platform or candidates. The work of the convention will be transacted in sessions which will be held today and tomorrow and all will be smooth sailing. Benjamin B. Odell, Jr., chairman of the state committee, who is slated for the gubernatorial nomination called the convention to order, and then gave place to Lieutenant Governor Woodruff, who acted as temporary chairman of the assemblage, which when permanently organized will renominate him for the state office he holds. Senator Depew will act as permanent chairman.

Mr. Woodruff's reported reluctance to accept a renomination vanished after an interview with Senator Platt and others last night. This disposed of the only hitch in the make up of the ticket which in addition to Messrs. Odell and Woodruff, will have on it the following nominees:

Comptroller William J. Morgan; secretary of state, John T. McDonough; state engineer, Edward A. Bond; attorney general, John C. Davies; state treasurer, John P. Jackel.

The nominations will be by acclamation. It is stated upon authority today that Mr. Odell will continue as chairman of the state committee until after the campaign. This is by request of the national committee.

Tenor of the Platform.

The platform has received the finishing touches and is ready for the perusal of the committee on resolutions. It will be explicit on national and state matters. The resolutions endorse President McKinley's and Governor Roosevelt's administrations, approve the course of the national administration in Porto Rico, Cuba and the Philippines, point with pride to the enactment of the state law taking franchisees, say little about further canal improvements, which the republicans of the state's farming districts oppose and endorse the national ticket and platform.

MINISTER WU IS A HORRIFIED MAN

Celestial Shocked by Conduct of Maids and Their Swains on a Hay Ride.

Cape May, N. J., Sept. 4.—Minister Wu Ting Fang disapproves of the American straw ride. The Chinese envoy was a guest of such a function last Saturday evening with his nephew, F. Ung Choa Shee.

Four horses, decked with sleigh bells and plumes pulled a hayrack half full of straw. The minister had the seat of honor at the head of the load. A dozen pretty Cape May damsels with their beaux, formed the party.

Minister Wu was delighted until, by the light of one of the Japanese lanterns he saw the arm of one of the young fellows steal around a girl's waist. In China this would be a most shocking breach of the peace, and the Chinese minister looked to see if the girl resented the advance. Instead her hand found that of her sweetheart under the straw and held it.

The farther the wagon went the more did the billing and cooing become epidemic.

Minister Wu had been brought up to different things. Taking the arm of his nephew firmly in his hand, he pulled him to the end of the wagon and alighted.

"We need exercise and will walk home," he said to the astonished people, and politely saying good night he and the young man went to the hotel across lots.

The minister will say nothing as to his reasons for leaving the party. He only says the women in China do not go on straw rides.

Democrats are Rustling

Montpelier, Vt., Sept. 4.—[Special Telegram]—The weather is fine, voting brisk and the indications are that a heavy vote will be cast. The democrats are rustling to reduce the republican majority.

Uncle Sam's Youngest Employee

Miss Jane Ward, a young Denver girl of 16, is probably the youngest person in the employ of the United States at the Paris exposition, where she is official interpreter to her father, William S. Ward, assistant director of mining and metallurgy to the United States commission at the exposition.

BATTLE GROUNDS OF THE CAMPAIGN

DEMOCRATS DENOTE STATES THEY HOPE TO CARRY.

Badger State is One of Them—All Southern States Are Counted as Certain for Bryan—The Nebraska Leader Will Be His Own Campaign Manager.

Chicago, Sept. 4.—[Special Telegram]—The democratic national committee has chosen its battle ground, Illinois, Indiana, Wisconsin, Minnesota, Michigan, Ohio, Kansas, Nebraska West Virginia. These constitute the official democratic list of "doubtful states," where effort will be concentrated.

All southern states including Kentucky and Maryland, to which Delaware in the east is usually added, are counted as certain for Bryan. The remaining western states are not getting much attention. Some, like Iowa and California and Oregon, are classed as hopeless; some, like Colorado and Utah, are counted as safe for Bryan.

The others are believed to be reasonably safe, but if they are not, the local managers must take care of them. The national managers think the effort necessary to get their small electoral votes will produce better results in the middle states named, the east—all save Delaware, Maryland and West Virginia, that is has been virtually given up, but there will be fighting there to keep the republicans busy.

W. J. Bryan will supervise in person the prosecution of the campaign in these "doubtful states"—in other words, will be his own campaign manager. It is semi-officially announced that he will make it a point to be here at headquarters every week or ten days at least until election time.

All his stumping tours will be so arranged that he can do this. Chairman Jones, Mr. Johnson, Mr. Walsh and the other executive committeemen will run the campaign, but they will run it, unless Mr. Bryan suddenly changes his plans and his nature, as Mr. Bryan may direct during his weekly visits.

CROKER RESENTS HILL'S TROY SPEECH

Calls Him a Deceitful and Untruthful Sneak and a Peanut Politician.

New York, Sept. 4.—[Special Telegram]—Boss Croker today bitterly resented Hill's reference to him in his Troy speech yesterday. Croker said: "Hill attacked me in his speech. He didn't come right out and attacked me by name but he did so indirectly. That's his way of doing business. Hill always hides behind something and leaves a loophole to crawl out of. He's deceitful and tricky and couldn't tell the truth if he wanted to. He's a politician, a peanut politician and he wouldn't be captain of a district if he lived in New York City. Tammany Hall wouldn't have a deceitful, untruthful sneak like Dave Hill in its organization. If it wasn't for these things I would have recognized Hill as a leader long ago."

ENGINEERS MEET IN CREAM CITY

National Association of Stationary Engineers in Annual Convention—About 350 Organizations.

Milwaukee, Wis., Sept. 4.—The National Association of Stationary Engineers, which meets here today will retain its headquarters in Chicago. There are about 300 delegates in attendance at the convention, and an effort is being made to keep George Van Tassel of Chicago in the secretaryship. An excursion of Chicago engineers and their friends to the number of about 1,000, will visit the convention tomorrow. The reports of the officers show there are about 350 organizations of the order in the country and that the membership is 15,000. The delegates were given a reception at the Plankinton House last night.

Sultan's Many Titles

Here are some of the titles which officially belong to Abdul Hamid, sultan of Turkey: The beloved sultan of sultans, emperor of emperors, the shadow of God upon earth, brother of the sun, dispenser of crowns to those who sit upon thrones, sovereign of Constantinople and the great city of Brousa, as well as of Damascus, which is the seat of paradise; king of kings, whose army is the asylum of victory, at the foot of whose throne is justice and the refuge of the world.

Wood Pulp for Soldiers' Clothing.

Wood pulp paper as military clothing is used by the Japanese troops. It is marvelously tough, and has an appearance that might well be regarded with satisfaction for summer wear. It holds stitching uncommonly well, while its warmth is undoubted.

NEGROES' FUTURE IN AFRICA.

Editor of Albany Spectator Plans to Educate the Natives.

London, Sept. 4.—"American negroes will have a hand in the reconstruction of native South Africa," said F. Z. S. Peregrino, editor of the Spectator, Albany, N. Y. Mr. Peregrino is about to leave England for the dark continent on a mission that combines education and politics. He continued: "While the primary object of my mission to Africa is to assume charge of an institution for the education of natives and to establish industrial schools among the tribes, I shall be on the ground during the period of reconstruction with which the country will soon be confronted. I purpose penetrating far into the interior. By informing myself of the past and present history of the tribes, I hope to be of some service, not only to the natives but to the dominant white race as well."

Mr. Peregrino's son is the head of a native institute in Cape Town. When asked his opinion of the African race problem, in the light of recent history, the Albany editor said: "Negro battalions are likely to continue in a manner until state rights are compelled to bow to a higher authority."

MACARTHUR TELLS OF BATTLE

Engagement Near Carmen, with Casualties—120 of Enemy Killed.

Washington, D. C., Sept. 4.—The war department has received the following dispatch from General MacArthur:

"Manila, Sept. 3.—Adjutant General Hughes reports reports engagement near Carmen. Bohol, our loss in killed, one; wounded, six. Enemy's loss in killed, 120. Have not received further details."

Bohol is an island in the southern part of the archipelago, 265 miles from Manila. It lies north of the large island of Mindanao, and is not far from Cebu.

ARTHUR SEWALL IS ON HIS DEATH BED

Wm. J. Bryan's Running Mate in 1896 Dying at His Home in the State of Maine.

Bath, Maine, Sept. 4.—[Special Telegram]—Arthur Sewall, democratic candidate for vice president in 1896, is in a critical condition at his summer home at Small Point, sixteen miles from this city. Mr. Sewall was seized with an attack of apoplexy at 10 o'clock last night and has been unconscious most of the time since then.

It was said by the physicians that there was absolutely no hope for his recovery. His death is expected at any moment, and he will probably not come out of the stupor in which he has lain since he was stricken. The family is about the bedside awaiting the end.

UNEASINESS IN CITY OF GLASSGOW

Bubonic Plague Cases Are Growing—One Hundred and Three Cases Are Under Observation.

Glasgow, Sept. 4.—[Special Cablegram]—Three bubonic plague cases are published as "doubtful." Their cases sent to the detention hospital, and one hundred and three others are under observation. The uneasiness is growing.

Glasgow, Sept. 4.—The area infected with bubonic plague has spread to Govan on the left bank of the Clyde. A boy died there Saturday, and today the medical authorities certified that he was a victim of the disease. Three additional suspected cases of the plague have been reported in this city.

New York, Sept. 4.—Dr. Alvah H. Doty, health officer of the port, has sent out from quarantine hurry orders for fifteen thermometers. As the steamship City of Rome was due from Glasgow, where there have been some cases of the bubonic plague, it was thought that these orders were significant. Dr. Doty, however, said that all on board the City of Rome were well. A number of instruments, he said, had been broken recently, and it was on this account that he hastened to get others to take their places. Passengers from Cuba, who are still on Hoffman island, have shown no symptoms of yellow fever or other disease. There are no patients on Swinburne island.

Made Hay While the Moon Shone.

It was quite impossible to make hay while the sun shone in Bedfordshire and Bucks. Gangs of men, women and children had to rest by day and work by moonlight. Large fields of hay were fired and farm horses dropped dead.—London Express.

Centipedes on Railroads.

An Alsatian newspaper reports that near Sennheim, recently, several trains were delayed, and one freight train had to be divided into two sections, because the track had been made slippery by thousands of crushed centipedes.

HARD FIGHTING IN SOUTH AFRICA

Dewet's Force Around Johannesburg Scattered After Hard Battle.

SIEGE OF LADYBRAND

Annexation of the Transvaal Means Treating the Boers as Rebels.

BOTHA STILL HOLDS HIS OWN

London, Sept. 4.—[Special Cablegram]—Gen. Roberts reports from Belfast that Plumer engaged the Boers at Rooikop and captured one hundred rifles and seventy thousand rounds of ammunition, three hundred and fifty cattle and seven prisoners. Plumer's loss is seven wounded.

A part of DeWet's force, so active around Johannesburg, was scattered after a sharp fight. The British loss was three killed and six wounded. Sixty killed and wounded.

A mounted column marched from Zerst to Krugersdorp, inflicting severe punishment on the Boers. The British loss unofficially is sixty killed and wounded.

Buller reports that he engaged the Boers under Botha near Lydenburg yesterday and that the enemy's fire was heavy.

Ladybrand in the Orange Free State, is again besieged by a big Boer force and Hunter is pushing on to its relief. Annexation of the South African republic is followed by a statement that it will appear on the maps when the war is over as the Transvaal colony.

To Treat Boers As Rebels.

London, Sept. 4.—Lord Roberts' proclamation annexing the Transvaal is construed here to mean that the Boer resistance is supposed by the military authorities to be virtually at an end. Henceforth republicans in arms in the Transvaal will be treated as rebels. It must, however, be remembered that a single proclamation in the Orange River colony did not put an end to the activity of the Boer commandoes in that state.

Kruger Will Still Fight.

Brussels, Sept. 3.—[Special Cablegram]—Secretary Van Boischoten of the Transvaal legation returned from a trip to South Africa. He says Kruger assured him that the two republics had ample supplies and men, also ammunition and are prepared to continue the struggle against England indefinitely.

May Make Roberts a Duke.

London, Sept. 4.—[Special Cablegram]—It is rumored that Roberts will shortly be recalled and appointed Commander-in-chief of the army with the title of duke.

OLDEST OF LIVING THINGS.

Official Report on Great Trees of California Made by the Government.

Washington, D. C., Sept. 4.—The department of agriculture has issued a report on investigations of the big trees of California that shows the dimensions of the big trees are unequalled and that their age make them the oldest living things. They are described by the report as "the grandest, largest, oldest and most majestically graceful of trees," and "the scarcest of known tree species, with the extreme scientific value of being the best living representatives of a former geologic age." The report says that the bark of the big trees is often two feet thick and almost noncombustible. "The oldest specimens felled," it says, "are still sound at the heart and fungus is an enemy unknown." Continuing the report says:

"The only grove now thoroughly safe from destruction is the Mariposa, and this is far from being the most interesting. Most of the other groves are either in process of or in danger of being logged. The majority of the big trees of California, certainly the best of them, are owned by people who have every right, and in many cases every intention, to cut them into lumber."

The report corroborates the statements of one authority, who says that one tree, on which he counted 4,000 rings, was undoubtedly in its prime, "swaying in the Sierra winds, when Christ walked the earth."

Business Keeps McKimley.

Washington, Sept. 4.—[Special Telegram]—The president had intended returning to Canton today but on account of pressure of public business the date of departure has again been postponed, probably until the end of the week.

CLINTON

Clinton, Sept. 4.—The good fellowship that exists among the pastors and people of the various churches of the place, was made manifest on Friday evening at the reception given to Rev. T. J. Parsons and his estimable wife on the return from his two months vacation spent abroad. The parsonage was filled to overflowing with their numerous friends not only from his own congregation, but the other denominations were well represented and the greetings were cordial. A short musical program was given consisting of both vocal and instrumental numbers by Mrs. Laman, A. J. Boynton, Miss Pangborn and Miss Ames. Rev. William Moore made a few remarks in his humorous style, welcoming the "Prodigal" to which Mr. Parsons replied, expressing his appreciation in the interest and kindness exhibited. Dr. McChesney returned thanks for the safe return home after which ice cream and cake were served when the company dispersed feeling that the evening had not been spent in vain.

Among the many aged people residing in our village, Mr. and Mrs. Webster are the only ones privileged to tread life's pathway together for so many years, they having just celebrated their sixtieth anniversary in a quiet way. Their respective ages are 90 and 88 years. Other aged people residing here are Mrs. Radway, nearly 91; Mrs. Burton, 90; Mrs. Enders, 91; Mrs. S. Jones, 88; Seth Durkee, 87; F. Nellie Langdon has been enjoying a visit in Chicago.

Remember that W. W. Woodside, of Janesville, will preach at the Methodist church next Sunday. Communion service at 11:30. H. C. Logan will occupy Mr. Woodside's pulpit in Janesville.

TRAMPS IN THE TOBACCO FIELD

An Experiment At Edgerton That Would Not Work—Scott Warehouse Nearing Completion.

Edgerton, Sept. 4.—Converting tramps into tobacco harvesters is not quite as easy as some may suppose. O. R. Pomeroy took fifteen of them down on his farm last Friday and about the only thing they did worthy of note was to help dispose of the good things he furnished them to eat. The hobo and work can never jag in the same class.

The large tobacco warehouse being erected by Mr. Scott is nearing completion and will be one of the best and roomiest warehouses in Edgerton. It will have a capacity of about 8,000 cases and will be fitted with all the modern improvements for handling tobacco.

Henry Ebbott and daughter Miss Mary leave on Tuesday for Redwood Fall, Minn., for a months visit to relatives.

Rev. Charles Spillman returned home Friday night from Canada where he has been for the past ten days paying a visit to his brother.

J. N. Sanford of New London, Wis., has been visiting old friends and relatives in Edgerton during the past few days. He is now employed as hardware inspector for Micklejohn & Hatten.

CAN'T KEEP IT UP

Can't Deceive Janesville People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Mr. Samuel Griffin, of 203 Locust St. journeyman carpenter, says: "I had a severe attack of la grippe and as a result weakness of the kidneys set in. These secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's and take no substitute.

Jury Took Leg Bail.

Elkhart, Ind., Sept. 4.—Justice Young of Goshen has had an unusual experience with a juror who objected to being locked up in a room pending the reaching of a verdict and who, in defiance of the court's instructions, took leg bail. A case of two young men charged with trespass by hunting on a farm against the owner's wish, had been heard, and the jury notified the court of its inability to reach an agreement. Justice Young decided to keep the jurors locked up until they arrived at a verdict. While the justice and the constables were at supper Juror David Hodges climbed over a transom and hurried away. Justice Young has announced his determination to punish Hodges for contempt of court.

She Starts a Cat Hospital.

Chicago, Sept. 4.—Work on the construction of the cat hospital has been begun by Mrs. Leland Norton, 4320 Grand boulevard. It is expected that the institution, which will be known as the Chicago Cat refuge, will be ready about Oct. 1 for sick, friendless and superannuated felines. Mrs. C. J. Wagner, of Sandusky, O., has sent \$50 to be used in maintaining the hospital, and many other persons outside of the city are taking especial interest in the refuge, especially on account of Mrs. Norton, who is widely known as the president of the Chicago Cat club and the owner of beautiful Angoras.

BOOM IN COAL EXPORTS

European Demand Greater Than Can Be Met.

LACK OF VESSELS A DRAWBACK.

Ocean Freight Rates High—More Piers and Colliers Needed—Great Increase in Export Tonnage Carried by Railroads—Exports Double Those of a Year Ago.

President Fink of the Norfolk and Western railroad, in discussing recently the prospects of creating a permanent and profitable demand for American coal in Europe, said that the outlook was so reassuring that work had been begun within a few weeks on a new coal pier at Norfolk to be used entirely for loading vessels in the foreign trade. This would involve an expenditure of \$350,000, but the new pier was necessary because of the growth of the demand for coal from large ships in the foreign trade. These could not be loaded economically at the existing low piers, and, moreover, they were so crowding the present facilities that the domestic trade was seriously interfered with.

Mr. Fink pointed out, according to the New York Post, that the foreign trade divided itself into three classes—first, the supply of ships with bunker coal to take them to their foreign ports, a business which has been large for some years, but lately has grown heavily; second, the demand from Europe, and, third, the business with Mexico and South America, which have been and still are the chief markets for soft coal exported from the United States, although Canada is by far the largest consumer of coal exported from the United States, taking over three-fourths of the quantity exported.

Mr. Fink said that he hoped that the United States had obtained a permanent foothold for its coal in the European market, but present conditions were so affected by special circumstances that he did not care to prophesy on that point. Prices for coal in Europe were unusually high, and it was not possible to tell how long they would last, while the withdrawal of so many English freighters from the European trade because of the war in South Africa and now by the troubles in China had advanced freight charters and made vessels more scarce. The foreign demand, however, was steadily increasing, and this had been particularly marked since last January. Excluding sales of bunker coal and shipments on government orders, Mr. Fink said that the export coal business of the Norfolk and Western railroad showed an increase of \$1,000 tons in the first seven months of the present year, and the present demand was about double that of a year ago. In January the increased exports were 5,000 tons, in April and May the monthly increase had grown to 10,000 tons and 11,000 tons respectively, while in June the gain was 22,000 tons and in July 20,000 tons, the actual tonnage exported in that month being the highest yet recorded.

The New York representative of one of the largest bituminous coal mining companies, which has long supplied the vessels of one of the fast transatlantic lines with coal, said that the foreign inquiries for coal had increased within the last six months to a remarkable extent and were far beyond their ability to fill on account of the pressure of the domestic demand, which was taxing the facilities of the mines, the car capacity of the railroads and of the piers at tidewater. Coal operators, he said, are of the opinion that this demand will be permanent and look upon it as likely to be of the greatest importance to the domestic trade as affording an outlet for any surplus production when the present extraordinary domestic demand eases off. It is thought that there can be little doubt that the United States will become an important factor in supplying the world with coal.

"The greatest need," said this agent, "is freight room, and I do not see how this can be met unless we build colliers. The present available supply of vessels is too uncertain to meet a steady foreign demand for coal. As it is, however, this country is exporting coal to every part of the world and has had agents for a year or so even in China. Recently there were loaded a 5,000 ton ship to that country and ships to St. Petersburg, Sweden, France, Italy and Greece."

"Increasing ocean freight rates are, however, playing an important part in the export question. A few weeks ago ships could be chartered from Philadelphia or Norfolk to Marseilles, Genoa or Naples at 17 shillings per ton. But now freight charters are 21 shillings per ton to those ports. There is nothing to fear on the question of the comparative quality of Cardiff and American export coal. The development of an export trade depends on the capacity of the mines here to meet the present demand, both for domestic and for export use. American coal is selling at tidewater at, say, \$2.50 to \$2.75 per ton, while Cardiff coal sells now for about \$7.50 per ton against \$5 per ton before the rise in selling price, but freight charters are so much against American coal that the quotations on the continent are not materially different."

The Kansas Heroes.

A year ago the Kansans were able to feature an imitation Funston swimming act at their autumn fairs. Now comes Musician Titus of Wichita climbing up one of the Peking walls with a rope in his teeth. An imitation of this, says the Buffalo Express, would knock the other all hollow.

Report of Oregon Accident.

Washington, D. C., Sept. 4.—The navy department has just received by mail the official report of Capt. Wilde of the battleship Oregon, reciting circumstances attending the grounding of that ship in the Gulf of Pechilli last June and her successful salvage. The report confirms the department's previously expressed conviction that the grounding was not in any respect attributed to fault on the part of Capt. Wilde or any officer of the Oregon, who, in fact, appear to have exercised extraordinary precaution to avert the accident. The Oregon has been completely repaired and arrived at Woo Sung, where she is to form one of the international fleet to guard the transport service during the existence of the Chinese troubles.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and enfranchising. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

MAD MEN ARE FOR McKINLEY.

The Illinois Railway Employees Political Organization, after looking into the subject carefully, has decided to support President McKinley and has issued an address to the railway employees of the country urging them to vote and work to that end, as a means of preserving their own best interests. The figures show that nearly two hundred thousand more men are now employed on the railways than was the fact under President Cleveland. The organization in question puts stress on the fact that both the companies and their employees are now prosperous, and should "let well enough alone." The present situation, they say, is a reality, while a "change" is uncertain even when viewed in the most favorable light.

By the organization of the employees has caused consternation among the railway companies, as it shows that the railway employees, as a body, will vote as they did for, for President McKinley.

"Imperialists" who claim that the Filipinos are capable of self government, probably readily explain the fact that the Filipinos cannot be made to do so. The simple proposition for the United States commission. The American Indians were sufficiently intelligent to understand the provisions of a treaty, but the Filipinos do not comprehend any element other than force.

Mr. Bryan cannot find a railway man who will turn the switch and sidetrack the McKinley regular in order to let the Bryan once in four years special go by. The railway men all have honest work and honest money these days, and they are not looking for any experiments that would deprive them of both.

Edward M. Hyzer's friends are doubly sure of his success—first because they know that he merits the opportunity of saying "I told you so."

Mr. Bryan declared that "men do as individuals" he probably had in mind Judge Lynch's government at the consent of the government of the South.

Wells, who was the demagogue for vice president four years ago, is now supporting McKinley for president.

Each day brings forth new evidence of the fact that the Chinese government was at the bottom of the Boxer movement.

Now that Bryan and Roosevelt have shaken hands the referee has no duty to perform other than that of counting Bryan out.

Chicago Journal—Senator Mason

says the cry of imperialism is nonsense. He ought to know. He helped start it.

The Hon. Grover Cleveland will also have considerable time to devote to duck shooting this fall.

ALL PLEAD GUILTY TO BEING DRUNK

John Arleson, Thomas Connelly, Sam Cooley, Hugh Miller and Herman Hill formed a quartet that were before the municipal court this morning on a charge of drunkenness. All plead guilty to the charge except Hill, who plead not guilty and his trial was set for tomorrow morning. Judge Piffel sentenced the rest as follows: John Arleson \$6.20 or twelve days in jail, Thomas Connelly \$5.30 or twelve days, Sam Cooley \$9.20 or sixteen days, Hugh Miller \$8.30 or twelve days.

Meaning of Names.

The other day a woman asked a clergyman at the font to give her child the name of "Nemralgia." She said she had seen the name in the newspapers, and thought it sounded so pretty. The word "Mesopotamia," it will be remembered, brought particular comfort to the old lady of history, and a story is told of another ancient dame, that she could not bring herself to think all evil of a being with such a pleasant sounding name as "Beelzebub." As a rule, words do carry their meaning in their sound. An essayist in the old "Literary Speculum" examined this subject, and produced a number of telling instances of the kind. The word "slow" in its sound is drawn out, and sounds lazy; the word "quick" on the other hand, though including an extra letter, leaps from the tongue with amazing energy. There is acceptance in "yes," there is refusal in "no." "Revenge" is fierce, and passionate; "pity" is soft and gentle. Then, we have the "lowing" of oxen, the "bleating" of sheep, the "cackling" of hens, the "grunting" of pigs, and the "howl" of a dog—all conveying to our minds the very sounds they are intended to express. Modern invention presents philologists every day with excellent opportunities for wordmaking, but at present there are few new words that possess the sound of inevitableness. For them the advice of Lewis Carroll holds—"Take care of the sound, and the sense will take care of itself."—London Globe.

The Girl and Her Vocation.

"Every girl, no matter what her station or prospects, should acquire some useful art or profession, should learn to do some one thing so well that it shall have a value in the great world market and in her hour of need suffice to make her a breadwinner," writes Margaret E. Saugster in Ladies' Home Journal. "The world has an abundance of mediocre workers, but it can never have a superfluity of those who have added to native endowment discipline and conscientious training. Probably the best gift which could be bestowed on most girls in any station or occupation would be what on the turf is known as staying power. Many of us begin with enthusiasm, but we give out before the end of the day. To adopt a line of conduct, to choose a special study or to decide on a course, and stick to it, is in each case to deserve success if not always to insure it. The path of life is strewn with the wrecks of those who began but did not hold on their way. She who would make her mark in this workaday world and gain her prize must be steady and persevering in the face of every discouragement, with belief in herself and in God."

Daily Hints For the Table.

During the heated term only light foods, such as omelets and fruits, should be served for breakfast, and coffee should be drunk without milk or cream. Tomato omelets are among the most nutritious and most easily digested of all mixed omelets. Be sure to use fresh tomatoes, as canned ones at this time of the year are not desirable.

Peel and cut in small pieces four large or six medium sized, thoroughly ripe tomatoes. Put them in a saucepan over a slow fire. After they begin to simmer carefully tilt the saucepan and pour off the water, then salt them well and set them back on the stove. Beat the yolks and whites separately of six eggs, then put them together in the same bowl and whip them well. Melt a heaping tablespoonful of butter in an omelet pan. When the butter bubbles, pour in the eggs. Stir them constantly until they set well around the edge; then sprinkle the tomatoes over the top. When the omelet is well set, fold it, turn it on to a hot platter and serve at once.

The Peerless Girl at College.

Enumerating upward of 50 methods by which a girl can work her way through college, a Cornell graduate writes in The Ladies' Home Journal: "A college education is possible for any one who is determined to have it. It may happen that the prospective student is obliged to stay at home and work several years before entering, but intensified desire brings compensation. It is not advisable, however, to defer entering until every cent necessary for a four years' course has been earned. Many girls, perhaps, give up the idea of going at all because they cannot go soon after leaving the high school, but nowadays it is not unusual to find attendance at universities open during the summer quarter teachers well along in the fifties who in their youth were denied a college education."

Russia's and Japan's Navies.

The navy of Russia has 459 fighting vessels, 658 heavy guns and 4,308 secondary and machine guns. Japan has 146 fighting vessels, 178 heavy guns and 1,312 secondary and machine guns.

STREET ASSESSMENT NOTICE.

Office of Street Assessment Committee, City of Janesville, Sept. 4, 1900.

The common council of the city of Janesville, having decided that it was expedient and necessary that Division street, from the southerly side of South Third street to the northerly side of Oakland avenue in the Third Ward, and North First street, from the easterly side of North Main street to the westerly side of East street, in the Second Ward, be improved by grading, at the expense of the real estate to be benefited thereby, and having ordered that the Street Assessment Committee view the premises and determine the damages and benefits which will accrue to each parcel of real estate affected by such change and improvement; the entire cost of the contemplated work or improvement upon said portions of said streets, and the amount that should be assessed to each parcel of real estate as benefits or damages accruing thereto by such contemplated work or improvement.

Notice is further given to all persons interested that said report is now on file and open for review in the office of the Street Assessment Committee, in the city clerk's office, in said city, and will be so continued for the space of twenty days after the date of this notice, and that on the 25th day of September, 1900, at 2:00 o'clock in the afternoon, the said committee will be in session at their said office to hear all objections that may be made to said report.

LABOR DAY WAS A DECIDED SUCCESS

EVENTS FOR THE CELEBRATION WERE ALL ENJOYED.

The Parade Made a Good Appearance and Attracted General Attention—Laboring Men Pleased with the Speeches of Revs. Denison and Goebel—Winners of Contest Prizes.

Labor day passed off pleasantly. The weather was perfect and everything worked for a successful carrying out of the events arranged for the celebration. The parade while not as large as some held in the city attracted universal attention.

The United Brotherhood of Leather workers on harness goods had the only float in the parade and also had a good number of members of the union in line. The Bricklayers and Masons carried the United States flag and had the largest turnout in the procession.

The Cigar makers, Printers, Painters, and Carpenters also had delegations in line.

The speeches in the park by Rev. R. C. Denison and Rev. Father W. A. Goebel, pleased the assemblage and were in line with the ideas of the labor leaders.

The vaudeville performances were very good, and attracted large crowds around the different platforms.

In the contests for cash prizes the winners were:

Shoe race—Cap Collier, first; Delaney, second.

Handsome baby boy—Baby Ross, first; son of Joe M. Caffrey, second.

Nail Driving Contest—Sondie Kingman, first; Mabel Brandon, second.

Sack Race—Gaffey, first; Delaney, second.

The dance given by the Trades Council at Assembly hall in the evening was a great success. Smith's orchestra of six pieces played exquisitely, and nearly five hundred people enjoyed the dance.

It was a nice party and a congenial crowd. The floor committee was P. J. McKelvey, W. E. Watts, Otto Buege and W. H. Phelps.

DAVID STEWART GETS A CONTRACT

Will Build a Three-Story Brick Block in Monroe to Cost Pretty Near \$22,000.

David Stewart of this city has just been awarded the contract for building a three story brick building at Monroe, Wis. The block is to be of brick, three stories high. The first floor will be occupied by one of the banks of the city. The second will be offices, and the third occupied by the Masons, as a Masonic hall. The building when complete will cost in the neighborhood of \$22,000.

Work on the new structure will commence at once. Mr. Stewart was in town last evening looking for men to work on the building.

The seventeen thousand dollar church being built at New Glarus by Mr. Stewart is nearing completion and when finished will be a credit to the city and Mr. Stewart. Mr. Stewart has been unusually successful of late in securing a number of large contracts at different points throughout the southern portion of the state against many competitors.

ROULETTE WHEEL OPERATED

Police Allowed Two Young Men to Run It Yesterday.

A roulette wheel located at the corner of West Milwaukee and River streets did a thriving business yesterday. The game was in charge of two young men who loudly proclaimed to the crowd that it cost but ten cents to take a chance and if you held the lucky paddle they paid four for one.

Although there is a city ordinance prohibiting all such games of chance, the young men in charge seemed to have no fear of being molested and kept up the game during the entire afternoon. The game was liberally patronized and many of the players were young boys under fifteen years of age. No age limit was put on the players by the young men in charge but anyone that had ten cents could buy a paddle and take a chance.

It seems very strange that a game should be allowed on one of the principal street corners of the town and no effort be made on the part of the police to stop it.

FILLED WITH POOR WHISKEY

Try to Drive Their Horse and Buggy Over a Box Car.

James Rook and a companion filled with poor whiskey, tried to drive their horse and buggy over one of the box cars on the side track on North Main street, near the button factory. The horse was unable to get over the car and succeeded in demolishing the shafts of the buggy to which he was attached, driving a portion of the broken shaft into his leg. After considerable trouble the horse was unhitched from the buggy and taken to Anton Behrendt's barn. The drivers should also have been cared for.

Mrs. August Buse, sixty-one years old and a resident of New York city, died at the home of her son, a mile and a half south of Afton Saturday evening, of cancer of the stomach. She leaves a husband and one son to mourn her loss. The body was brought to this city this morning and shipped to New York city, where the funeral service and interment will be held.

A MATCH for position on their respective teams is being played this afternoon between different members of the A and B class players at the Siniassippi Golf grounds. A basket picnic will be held at the club house after the matches.

JIM Casey, who formerly worked for Nelson Bros. got into a fight on Milwaukee street near the entrance to the Myers House annex this forenoon.

Chief Hogan appeared on the scene, stopped the scrap and took Casey to the city lock up. Casey was under the influence of liquor and was very abusive.

THE funeral of Minnie Grossclaus, the five month old daughter of Mr. and Mrs. August Grossclaus, who died of cholera infantum at the home of her parents on the Henry Blunt farm in the town of Rock Sunday night at 8:35 o'clock, was held this afternoon from the home at 10 o'clock, Rev. W. W. Woodside of this city officiating. The interment was in Afton cemetery.

I had suffered from a general running down of the system caused by bowel and rectal trouble. Many doctors had treated me unsuccessfully and I consider my cure by Dr. Seiser a remarkable display of medical skill. Those who suffer from chronic disease should not fail to consult Dr. Seiser.

DISSATISFIED WITH ELECTRIC LIGHTS

QUESTION CAUSES WARM DISCUSSION IN THE COUNCIL.

Aldermen Protest Against the Poor Service in Some Localities—Electrician Kline Appointed to Investigate the Matter and Inspect the Lights—Election Inspectors Named

The way in which the electric lights are being run, caused a warm discussion at the council meeting last night.

Alderman Hutchinson wished to know if the city had anyone to look after the electric lights. He had noticed the lights several evenings, when on his way down town. He noticed two lights out on Cornelia street Sunday night and last night, and that there were lights out in every ward in the city every night.

Alderman Rice said that 20 percent of the lights were either out or gave such poor light that they were more like a tallow candle than an electric light; that all the lights in a circuit did not go out at once, but part would be burning, and part out.

Alderman Kothman asked if the Janesville Electric Light Co. received pay for the lights, whether they burned or not. He was informed that there was nothing in the contract with the city covering that point.

Ald. Judd said he came from Milton Avenue Sunday nights and several of the lights were not burning and those that were burning did not give over half the required candle power.

Kline to Inspect Lights.

Ald. McLean moved that City Electrician Henry Kline be appointed light inspector. Ald. Kothman thought the city was putting too much work on the city electrician, that he had to have some time to sleep. Alderman Judd said he would not loose much sleep as the lights were all out before nine o'clock at night. The motion of Ald. McLean was acted on and City Electrician Kline was appointed light inspector.

To Extend a Sidewalk

A petition from six residents on Mineral Point avenue, asking for the extension of the Jackson street sidewalk to Mineral Point avenue, with crossing to the north side of Mineral Point avenue, was granted.

The ordinance granting permission to the Chicago & Northwestern Railway company to change the location of their spur track on Bluff street, was passed.

To Construct a Spur Track.

The ordinance permitting the C. & N. W. to construct a spur track across Railroad street was read for the third time and adopted.

An order providing that the part of Clark street between South Main and Glen Elia streets be narrowed to thirty feet, and that part of Dodge street between High and Franklin streets be narrowed to thirty-four feet was passed.

An order authorizing the street commissioner to repair McKee boulevard and Eastern avenue was adopted.

Ald. Judd introduced an order which was adopted granting permission to the Janesville Shooting club to shoot at Athletic park, using shot guns and smokeless powder.

The following appointments for election day were read and confirmed:

LABOR HEARS TWO LEADERS.

Bryan and Roosevelt Speak in Chicago.

AND AT THE SAME MEETING.

Their Speeches Were Non-Partisan, and a Good-Natured Multitude Listened to Them—They Were Prominent Attractions of the Labor Day Celebration.

Chicago, Sept. 4.—Twenty thousand persons attended the Labor Day picnic at Electric park. After the big parade down town had ended, union labor and its friends went to the park and gave up the afternoon and evening to hearing speeches by Theodore Roosevelt, William Jennings Bryan, Richard Yates, Samuel A. Schuler, Senator William E. Mason, and other shining political lights. When the speakers failed the picnicers found plenty of amusement in sports, dancing, and other recreations furnished by the park.

Neither of the two leaders missed the inspiration that comes from the touch of fiery American political enthusiasm, and the cheering was all the louder, the applause all the more vigorous and the free and easy personal tributes all the more exciting because given in the open air, with nothing but a board fence in the distance and an awning hanging between trees and tent poles to keep the rest of the world away.

From Mr. Roosevelt's Speech. Here are some sentences from Mr. Roosevelt's speech:

When we come to dealing with our social and industrial needs, remedies, rights and wrongs, a ton of oratory is not worth an ounce of hard-headed, kindly common sense. Let us scrupulously guard the special interests of the wage-worker, the farmer, the manufacturer and the merchant, giving to each man his due and also seeing that he does not wrong his fellows; but let us keep ever clearly before our minds the great fact that, where the deepest cords are touched, the interests of all are alike and must be guarded alike. Our prime need as a nation is that every American should understand and work with his fellow citizens, getting into touch with them so that by actual contact he may learn that fundamentally he and they have the same interests, needs and aspirations. On the whole it would be hard to overestimate the good these organizations (labor unions) have done in the past, and still harder to estimate the good they can do in the future if handled with resolution, forethought, honesty and sanity. It is always better to mediate before the strike begins than to try to arbitrate when the fight is on and both sides have grown stubborn and bitter. The idler, rich or poor, is at best a useless and is generally a noxious member of the community. To whom much has been given from him much is rightfully expected. Much can be accomplished when effort is made along the sane and sober lines, with care not to promise the impossible, but to make performance square with promise, and with insistence on the fact that honesty is never one-sided, and that in dealing with corporations it is necessary both to do to them and to exact from them full and complete justice. Let us strive to make the conditions of life such that as nearly as possible each man shall receive the share to which he is honestly entitled, and no more.

From Mr. Bryan's Speech. Here are some epigrammatic sentences from Mr. Bryan's speech:

The laboring man constitutes so large and so indispensable a proportion of the population that no social, economic or political question can be treated without an investigation of their connection therewith. To seek a remedy for every abuse of government is more patriotic than to profit by mad systems and then frown down all criticisms. If we repudiate the doctrine that the people are the only source of power there will be no spot on earth toward which humanity can look for support and for strength. Those who are well-to-do have a selfish interest and should feel a moral concern in removing despair from every human breast. As misery is lessened the security of prosperity is increased. The attempt to use the injunction of a court to deprive the laboring man of trial by jury should alarm all our people, or while the wage-earner is the last to feel its effects, the principle which underlies government by injunction is so far-reaching that no one can hope to escape ultimately. How much cheaper it is to uplift people by the gentle and peaceful process of intellectual development than to bow them up with powder and dynamite. Corruption in municipal, state and federal governments is due to the misrepresentation of the people by public servants who use their positions for private advantage. The only domestic use for a large standing army is to suppress by force that discontent which should be cured by legislation. When I say that those who distrust the capacity of the people for self-government tend directly toward monarchy, I am only repeating what Lincoln deliberately declared in his first annual message. A permanent army of 100,000 men requires approximately one-half as much money as is annually expended for education in the United States.

Ex-Gov. L. D. Lewelling Dead. Wichita, Kas., Sept. 4.—Ex-Gov. L. D. Lewelling died suddenly of heart failure at Arkansas City, Kas. He had been in poor health a long time. Last Saturday he went to Geuda Springs, a watering place, near Arkansas City, but grew worse and stayed Sunday to return to his home here. At Arkansas City he went to the home of his brother-in-law, where the end came. Since the expiration of his term of office the ex-governor had been engaged in the real estate business and dairying. He continued to exert a considerable influence in populists' councils.

State Election in Arkansas. Little Rock, Sept. 4.—The Democrats of Arkansas elected their entire state ticket. Returns show that the following are elected: Governor, Jefferson Davis; Secretary of State, John W. Crockett; Attorney General, George W. Murphy; Auditor, T. C. Monroe; Treasurer, Thomas E. Little; Land Commissioner, J. W. Colquitt; School Superintendent, J. J. Doane; Agricultural Commissioner, Frank Hill; Supreme Court Justice, Carroll D. Wood; Railroad Commissioners, Abner Gaines, J. G. Wallace, F. M. Hanley.

Wounded Soldiers Leave. San Francisco, Cal., Sept. 4.—Thirty-one fever-stricken or wounded soldiers were discharged from the general hospital at the Presidio today, and given transportation to Washington, D. C. They are from the Philippines and have been under treatment for some time. Most of the complaints are incurable, and the men have applied for admittance to the Soldiers' home at Washington.

Fire Destroys Soda Plant. Cheyenne, Wyo., Sept. 4.—Fire destroyed the soda works plant of the Stephen Paden Company of Chicago, which is situated about a mile from Laramie, Wyo. The plant cost \$30,000, and was only partly insured. The loss is estimated at \$40,000.
